Professional Summary

Full Stack Developer focused on building scalable and user-friendly web applications. Skilled in frontend and backend development, REST APIs, authentication systems, and database design, with experience delivering complete projects independently using modern web technologies.

Technical Skills

- **Languages:** C, C++, Java, Python
- **Frontend:** HTML, CSS, JavaScript, React (Basic), Next.js (Basic), Tailwind CSS
- **Backend:** Node.js (Basic), Express.js (Basic), PHP, jQuery, AJAX
- **Databases:** MySQL, MongoDB, PostgreSQL (Basic)
- **Tools & Concepts:** Git, GitHub, REST APIs, Role-Based Access Control, Socket.IO, Agile/Scrum

Education

Bachelor of Engineering (CSE)

Expected July 2027

PES Institute of Technology and Management

Projects

CollegeNavigator –

Tech: Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Tailwind CSS

- Built a full-stack college discovery platform to search, filter, and compare colleges with detailed profiles including courses, placements, and reviews.
- Designed a normalized PostgreSQL schema and RESTful APIs for college listings, user auth, saved colleges, and comparison features.
- Developed a responsive Next.js frontend with dynamic routing, auth flows, and multi-college comparison views.

MOODIFY –

Tech: Python, NLP, Spotipy, HTML, CSS, JavaScript

- Built an emotion-aware music recommendation system using NLP-based sentiment analysis to detect user mood from text input.
- Integrated Spotify APIs via Spotipy to generate personalized playlists; collaborated in a team of 4 owning the NLP pipeline and frontend connectivity.

CSE-Portal-PESITM –

Tech: React, Node.js, Express.js, PostgreSQL

- Contributed to a full-stack academic portal with role-based access for students, faculty, and admins; built React UI components and Express.js APIs.
- Assisted in PostgreSQL schema design and backend data flow implementation.

CodeSync –

Tech: JavaScript, Node.js, Socket.IO, HTML, CSS

- Developed a real-time collaborative coding platform for simultaneous multi-user code editing with low-latency synchronization via Socket.IO.
- Deployed a scalable, responsive web application ensuring reliable multi-user sessions.

Technical Experience

CollegeNavigator – Internship Selection Assessment

- Completed as a technical assessment for internship selection, delivering a production-grade full-stack application independently within a defined timeline.
- Demonstrated proficiency in TypeScript, PostgreSQL relational design, JWT-based authentication, and full-stack deployment on Vercel.

MONAIthon – Medical Imaging Hackathon

- Achieved Rank 15 by developing a deep learning pipeline for medical image segmentation and analysis.
- Performed dataset preprocessing, model experimentation, and evaluation; gained hands-on experience applying ML to real-world medical imaging datasets.

Certificates

- **Software Engineer Intern Certificate** – HackerRank 
- **Problem Solving Certificate** – HackerRank 
- **LeetCode 50 Days Badge** – 100+ Problems Solved
