

PRADEEPA PALLETI

pradeepapalleti16@gmail.com | LinkedIn | GitHub | LeetCode | Portfolio

Summary

Full Stack Developer focused on building scalable and user-friendly web applications. Skilled in frontend and backend development, REST APIs, authentication systems, and database design, with experience delivering complete projects independently using modern web technologies.

Skills

- **Languages:** C, C++, Java, Python
- **Frontend:** HTML, CSS, JavaScript, React, Next.js, Tailwind CSS
- **Backend:** Node.js, Express.js, PHP, jQuery, AJAX
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Tools and Concepts:** Git, GitHub, REST APIs, Role-Based Access Control, Socket.IO, Agile, Scrum

Education

Bachelor of Engineering (CSE)

Expected July 2027

PES Institute of Technology and Management

Projects

CollegeNavigator

GitHub: github.com/pradeepapalleti/CollegeNavigator | Live: college-navigator-psi.vercel.app

Tech: Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Tailwind CSS

- Built a full-stack college discovery platform with search, filter and comparison features across detailed college profiles including courses, placements and reviews.
- Designed PostgreSQL schema and REST APIs for listings, JWT authentication, saved colleges and comparison; deployed responsive Next.js frontend on Vercel.

MOODIFY

GitHub: github.com/pradeepapalleti/Moodify | Live: moodify-gso9.onrender.com

Tech: Python, NLP, Spotipy, HTML, CSS, JavaScript

- Built a mood-based music recommendation system that detects emotion from text input using sentiment analysis and generates a matching Spotify playlist via Spotipy.
- Led NLP pipeline development and frontend-backend integration as part of a 4-member team.

Mentor Management

GitHub: github.com/pradeepapalleti/Mentor-Management | Live:

mentorbridge.infinityfreeapp.com

Tech: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap

- Built a role-based mentorship platform where mentors monitor academic performance and provide feedback, while mentees log activities, upload certifications and track progress.
- Implemented role-based access control, session management and a structured dashboard for both mentor and mentee workflows.

CodeSync

GitHub: github.com/pradeepapalleti/Codesync | Live: codesync-virid-tau.vercel.app

Tech: JavaScript, Node.js, Socket.IO, HTML, CSS

- Built a real-time collaborative coding platform supporting simultaneous multi-user editing with low-latency sync via Socket.IO.
- Deployed a scalable, responsive app ensuring reliable sessions across concurrent users.

Experience

CollegeNavigator – Internship Selection Assessment

- Delivered a production-grade full-stack application independently as a technical assessment for internship selection, within a defined deadline.
- Covered end-to-end development – schema design, REST APIs, JWT auth and Vercel deployment – without team support.

MONAIthon – Medical Imaging Hackathon

- Secured Rank 6; worked with 2 real-world medical datasets and built 2 deep learning models to predict conditions from patient reports.
- Handled data preprocessing, model training and evaluation; accuracy fell short of top teams, gaining practical insight into model optimization and medical data challenges.

Certificates

- **Software Engineer Intern Certificate** – HackerRank – [View Certificate](#)
- **Problem Solving Certificate** – HackerRank – [View Certificate](#)
- **LeetCode 50 Days Badge – 100+ Problems Solved** – [View Profile](#)
